ENERGY ACTION PLAN SUMMIT

The Summit's program will feature these useful tools for local government leaders:

- Utility goals and resources for local government partners
- Techniques to help residents and businesses save money on energy bills
- How to fund your energy efficiency projects
- An Energy Action Plan (EAP) template and tools to help you draft your energy action plan

The morning keynote and conversation is designed to cover big picture and statewide updates. In the afternoon, participants will roll up their sleeves in two breakout sessions: Implementing your EAP or Beginning your EAP.
